	89.1	MON
DENSITY	0.745	kg/l @ 15.0 C
OXYGEN	<0.20	%mass
VAPOUR PRESSURE	56.1	kPa
DISTILLATION	22.8	%vol @ 70.0 C
	46.1	%vol @ 100.0 C
	86.3	%vol @ 150.0 C
	97.2	%vol @ 180.0 C
LEAD	<1	mg/L
SULPHUR	6.0	mg/kg
BENZENE	0.68	%vol
OLEFINS	8.9%	%vol
MANGANESE	<1	mg/L
PHOSPHEROUS	<0.2	mg/L

* Compared to NPD Unleaded 91. Actual benefits may vary between different vehicles depending on engine design and operational well-being, driving conditions and other factors. Some vehicles may require some degree of tuning to maximise the potential benefits from 100Plus.

WARNING: This is a high-performance fuel that may not be suitable for every vehicle. It is advised to check with your mechanic on the suitability of this fuel for your vehicle. Please be aware the active ingredients in 100Plus can cause discolouration to plastic fuel tanks, components and decals when exposed to UV light (sunlight).

Take care not to overfill and thoroughly wipe off any spillages to avoid potential damage to paintwork. NPD Ltd assumes no liability for damage caused by 100Plus fuel.
